## PROFESSIONAL SUMMARY

---

I'm a recent graduate of a computer science program that specialized in mobile development, looking to start my career as a software developer at a great company where I can both contribute and learn from more experienced developers. I'm a hard worker and a quick learner, and I have educational experience with native, web, and hybrid mobile development for both iOS and Android.

---

## EXPERIENCE

---

### CO-OP QUALITY ASSURANCE ENGINEER

TERANET INC. // MISSISSAUGA, ON // JAN 2022 - MAY 2022

I worked within a team to debug, modify, and create new UI automation and API tests. We used Selenium for UI automation, and test code was written in C# with the .NET framework. My team communicated daily to coordinate tasks and provide updates on completed and in-progress work, supporting an agile environment.

### FRONT END DEVELOPER CO-OP

AVANTE IO INC. // TORONTO, ON // JAN 2020 - SEPT 2020

I was in charge of constructing a Docker cluster for a new app the company was developing, as well as the related Kubernetes cluster deployed using Amazon EKS on AWS. I also worked within a small team on a Django Python application, including writing functions to interface with an international shipment tracking API and a PostgreSQL database.

---

## PROJECTS

---

### CREATIVE IDEATION

In the final year of my program, myself and two others created an iOS application from the ground up to facilitate creative problem solving processes, and were voted best capstone project of our year by our peers and professors. Users generate ideas on virtual sticky notes with their peers, and use a voting system to narrow down ideas. We used Swift with SwiftUI for our interface, and a Firebase NoSQL database.

### APEX LEGENDS STATS APP

I created a hybrid mobile app using Cordova that allows players of the game Apex Legends to look up another player's stats using their username. The application supports lookup on all three major gaming platforms of the time (PC, PS4, XBOX) using an external API to retrieve the information.

---

## EDUCATION

---

### HONOURS BACHELOR OF COMPUTER SCIENCE

SHERIDAN COLLEGE // OAKVILLE, ON // 2022

---

## TECH SKILLS

---

SWIFT // SWIFTUI // JAVA // C# // PYTHON // JAVASCRIPT // REACT NATIVE // SQL //  
ANDROID STUDIO // XCODE // VISUAL STUDIO // FIGMA // JIRA // AZURE // MS OFFICE
