XCode, Android Studio, Visual Studio, Figma, Microsoft Office, Jira, Azure

EDUCATION

Honours Bachelor of Computer Science (Mobile Computing)   **June 2022**
Sheridan College, Oakville, ON

WORK EXPERIENCE

Front-End Developer Co-op   **May 2020 – Aug. 2020**
Avante IO Inc., Toronto, ON

- Constructed a Docker environment to increase portability and productivity
- Created and deployed an application to a Kubernetes cluster using Amazon EKS on AWS
- Developed functions to interface with an international shipment tracking API and accurately update a postgreSQL database
- Enhanced existing code to add new functionality, such as reading data from a pdf and processing it into shipment data
- Worked within a small team to test, modify, and add new unit tests to cover discovered bugs and newly written features

Co-op Quality Assurance Specialist   **Jan 2022 – April 2022**
Teranet Inc., Mississauga, ON

- Executed and debugged failing UI automation and API tests to diagnose bugs
- Worked with my team to modify and add new UI automation and API tests to cover discovered bugs and newly written features
- Communicated daily with team members to coordinate tasks and provide updates on completed or in-progress work, supporting an agile environment

PROJECTS   https://mattm1044.github.io

Creative Ideation (2021)
- Facilitates creative problem solving in groups. Users generate ideas, and vote on the best ones
- Created with Swift, utilizing SwiftUI for the user interface, and a Firebase NoSQL database

Discord Chat Bot (2020)
- Can generate a random number, tag users, sort users into random teams, etc.
- Programmed in JavaScript and uses the Node.js framework

Apex Legends Stats App (2020)
- Hybrid mobile app for android that allows users to look up a player's stats
- Utilizes an external API to retrieve information about a player across game platforms
- Made with JavaScript and uses the Apache Cordova framework
